

TERRYTORY

PRINTABLE GAME

TERRYTORIUM it's a simple mini game. The player's task is to capture the largest possible territory using the acquired elements on the board. Checked paper or ready-to-download templates available on our website and a pen will be useful. We draw and combine the acquired elements on the board (template) in such a way as to obtain the largest possible enclosed space. Game templates are available after logging into your account in the games and templates section.
