## WHAT AND HOW...

The next, interesting and engaging word puzzle we have prepared for you is **ANAGRAMS**.

What is an **ANAGRAM**? In a few words, an anagram is a word or phrase created by rearranging the letters in another word or phrase. In an anagram, the same letters are used as in the original word, but in a different order. For example, an anagram of the word "cat" could be the word "act" or "tac". **ANAGRAMS** are often used in word games and puzzles, as well as in literature and poetry as a fun way to play with words.

Our **ANAGRAM** generator online, located on the website [8doodles.com](http://8doodles.com), generates 4 sets of anagrams consisting of 4, 8, 12, or 16 words. Your task is to guess them.

But that's not all! To make your game even more exciting, we added another word puzzle, **THINK**, which is located on the same template as **ANAGRAMS**. Your task is to connect words that have something in common. Think hard, because there is a lot to think about! We guarantee a very interesting word game. Good luck!

*One more thing, Lily is the **ANAGRAM** game's guardian.*
