WHAT AND HOW...

SUDOKU is a logic puzzle that involves placing numbers in a grid. The first grid is a 4x4 grid where each row, column, and one of the nine 2x2 sub-squares must contain all the numbers from 1 to 4. The second grid is a 9x9 grid where each row, column, and one of the nine 3x3 sub-squares must contain all the numbers from 1 to 9. The puzzles start with some cells already filled in, and the player must fill in the rest using deduction and logical reasoning.

SUDOKU has become a popular pastime for people of all ages around the world. They are available in various levels of difficulty, from very easy to very challenging, and can be found in newspapers, books, and online. On our platform 8doodles.com, **SUDOKU** puzzles are available and generated by our online generator.

For your convenience, we have prepared 4 versions of SUDOKU: easy, medium, hard, and an expert level.

*Keep in mind that patience and logical thinking are crucial in solving **SUDOKU**. Practice regularly, and over time you'll find that you'll be able to navigate more and more complex **SUDOKU**. Oh, one more important thing, Molly will take care of you while you're solving the **SUDOKU**.*
