WHAT'S IT ALL ABOUT...

Thank you for downloading our digital publication dedicated to logic games and puzzles. We have prepared for you ready-made templates for word games called **WORD PUZZLES**. These templates utilize several of our creative games and generators. Surprise your friends and family with your vocabulary knowledge, create words, and score points!

As you probably know, word games are a great form of entertainment and at the same time an excellent way to exercise the brain. Regularly playing word games contributes to improving vocabulary, creativity, concentration skills, and focus. These games can also help improve communication and increase confidence in using language. Moreover, playing word games can be a great activity for spending time with family or friends.

*As publishers, we guarantee you enjoyable moments spent using the **WORD PUZZLES** templates and great fun with other members of your family!*

WHAT AND HOW...

This time we present you **WORD PUZZLE** templates for a game resembling a traditional crossword puzzle. Your task is to write as many words as possible using the existing letters on the template. The **WORD PUZZLE** template is universal and allows for its use in several different games. Below we present a few of them. However, remember that each player must have the same template to conduct the game, unless the players unanimously decide on a slightly greater challenge, and the game will be played only on one common template.

Game 1: Use our **LETTER GENERATOR** for the game. Players take turns entering the randomly selected letters on the template to form as many words as possible. Each entered letter is worth 5 points. Each word formed is worth 10 points. The winner is the first player to score 500 points. Remember that the letters obtained are entered vertically or horizontally.

Game 2: Use our **WORD GENERATOR** for the game. Players take turns entering the randomly selected words on the template, in the same way as in a traditional crossword puzzle, connecting them vertically and horizontally. All connected letters must form known words. Each used letter from the template is worth 10 points. A written word that does not use a letter from the template is only worth 5 points. Each word formed is worth 10 points. The winner is the first player to score 1000 points.

Game 3: Use the **LETTERS O** game board to acquire individual letters that must be entered on the template to form words. Each entered letter is worth 1 point. Each word formed is worth 5 points. The winner is the first player to score 200 points.

We guarantee unforgettable moments during each game and rely on your creativity and knowledge of the language and vocabulary. During the game, a dictionary can be used to surprise other players. However, using the dictionary deducts 10 points from the previously earned points in the game. Therefore, decide wisely when and how you want to use the dictionary to avoid losing too many points. Great family fun.
