

# COLLECTOR

GAME MANUAL + SCORE SHEET

GAME

ANETTA G. HELLER

ARTUR J. HELLER

## WHAT'S IT ALL ABOUT...

Collector is a very simple and fast cat-themed game where points are tallied. Each player has five numerical dice at their disposal. The game consists of six rounds. In one round, the player rolls the dice three times. After the first roll, they must decide and declare which numbers from 1 to 6 they will be collecting in that round.

To get the maximum number of points for a selected number, the player must roll all five dice with that number, for example, 5-5-5-5-5, which would earn 10 points (5+5).

By selecting individual numbers from 1 to 6, the following number of points can be obtained:

- for number 1 (-1, X, 1, 1-1-1-1-1 = **2 points**)
- for number 2 (-2, X, 2, 2-2-2-2-2 = **4 points**)
- for number 3 (-3, X, 3, 3-3-3-3-3 = **6 points**)
- for number 4 (-4, X, 4, 4-4-4-4-4 = **8 points**)
- for number 5 (-5, X, 5, 5-5-5-5-5 = **10 points**)
- for number 6 (-6, X, 6, 6-6-6-6-6 = **12 points**)

*Just so you know, MAYA is the designated overseer, managing the flow of this dice game.*

MY NAME IS

YOUR HOST FOR  
THE COLLECTOR  
GAME

## DID YOU KNOW THAT...

... The rules for scoring points are very simple:

### 1 or 2 dice with the same number

- negative number (e.g. 2-2 = -2 points)

### 3 dice with the same number

- counting the number marked as X (3-3-3 = X counted)

### 4 dice with the same number

- points earned for that number (e.g. 4-4-4-4 = 4 points)

### 5 dice with the same number

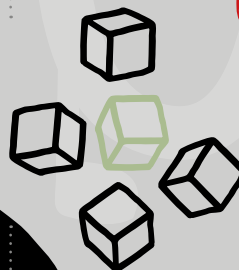

- more points (e.g. 6-6-6-6-6 = 6+6 = 12 points)

Each player has the opportunity to use the "Chance" field, which simply involves adding up all the values of the five rolled dice. It's worth using it! The player with the highest number of points wins.

*I hope this instruction was helpful and that you are looking forward to playing COLLECTOR.*

**X2**

The number obtained in the field marked with a red circle is double points, negative or positive.
