GAME MANUAL

OVERVIEW & OBJECTIVE

DE-LOVE is a heartwarming and interactive board game, perfect for bringing love and laughter to any occasion, especially Valentine's Day. Whether you're spending time with your partner, family, or friends, this game offers a delightful way to bond, share smiles, and create cherished memories.

The goal is to journey across the board, navigating Cupid's playful surprises, sweet moments, and funny challenges, all while racing to the final destination—the **"Home of Love,"** located at the top left corner and marked with the same heart icon as the beginning. This game is not just about winning; it's about enjoying the experience together and celebrating connection.

HOME OF LOVE

LOVE QUEST

SETUP & COMPONENTS

To begin, set up the De-Love game board on a flat surface. The board features an 8x8 grid with Valentine-themed spaces, including Cupid's Boost, Heartbreak Traps, Romance Fields, LOVE spaces, and Card Fields. Place the Valentine-themed player tokens close to the starting point labeled with a heart at the left bottom corner. This spot is called **"Love Quest."**

Open the **FOUR CARD SETS ONLINE**, which include **Romance Cards**, **Challenge Cards**, **Cupid's Treasure Cards**, and **Cupid's Oops Cards**.

Alternatively, if you don't have online access to **Explore & Play** where cards are, open or print cards from your PDF file and have them handy somewhere close to the board. To use cards from the PDF file, you will need three dice—two white and one black. Later in the instructions, we explain how to use these dice to draw a card. It's a very simple process.

Each card set brings unique tasks, surprises, and rewards to the game, making every session unpredictable and engaging. Provide one standard die for movement. Decide the turn order by having each player roll the die; the highest number starts the game.

GAMEPLAY & INSTRUCTIONS

Players take turns rolling the die and moving their token the corresponding number of spaces following the small arrows visible on the board.

Each space on the board has a specific action that must be followed:

- **Landing on a LOVE space** adds an extra layer of unpredictability. Players roll the die to determine their action: rolling 1-3 allows them to move forward by 2 spaces, while rolling 4-6 sends them back by 2 spaces or causes them to lose a turn.

- **Landing on a CUPID'S BOOST** space propels the player forward to the next available one, giving them an advantage.

- **Landing on a TIME TRAP** sends the player back to the same space with the same Time Trap mark, creating playful setbacks.

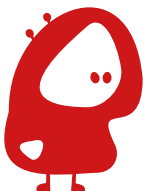

- **Reaching a ROMANCE FIELD** allows the player to switch positions with another player of their choice.

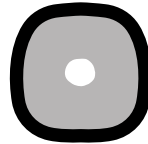

- **Landing on a CARD FIELD** requires the player to draw a card from one of the four available sets and complete the task described on it.

The game also includes an exciting interaction when one player's token lands on a space already occupied by another. In this case, the occupying token is captured and sent back to the "Love Quest" starting point, adding a competitive element to the game.

TIME FOR A QUICK GAME

The gray space with a small white dot is a regular space with no special action. Players can simply rest here and prepare for their next move.

The game continues until one player successfully reaches the final space, the "Home of Love," and is declared the winner.

ALTERNATIVE GAMEPLAY: SCORING VERSION

For those who enjoy a competitive twist, De-Love offers an alternative scoring version. In this mode, players can earn points throughout the game and record them on a printable score sheet. Points are awarded as follows:

Completing a Romance Card:
+2 points (or the specific points listed on the card).

Completing a Challenge Card:
+3 points (or the specific points listed on the card).

Landing on Cupid's Boost:
+1 point (or the specific points listed on the card).

Landing on a LOVE Field:
+2 points (or the specific points listed on the card).

Landing on a Heartbreak Trap:
+2 points (or the specific points listed on the card).

At the end of the game, players tally their points. The highest-scoring player is awarded the title of "Ultimate Cupid's Champion."

OFFLINE PLAY WITH THREE DICE AND CARD INTERACTION

When playing offline, use three dice: two white numeric dice and one black die. This method allows you to draw cards and perform tasks seamlessly, even without internet access.

Roll all three dice together The two white dice generate numbers from 1 to 6. The black die indicates the card type based on the rolled number:

- P** - for even numbers (2, 4, 6).
- N** - for odd numbers (1, 3, 5).

Combine the results Use the white dice to choose a number that corresponds to a card. Refer to the black die to determine the card category (P or N).

Perform the task Draw the corresponding card, follow its instructions, and complete the assigned task.

If you choose to play with a point system, collect points based on the tasks completed on the cards to enhance your gameplay and compete for the highest score.

This method ensures uninterrupted play and provides the same exciting challenges as the online version. All you need is the PDF cards and three dice to keep the fun going!

As a member, you can create your own set of custom cards for this game to add a personal twist to gameplay.

Enjoy the game!
