

5 AND 2

GAME MANUAL + SCORE SHEET

ANETTA G. HELLER

WHAT'S IT ALL ABOUT...

The 5 and 2 dice game is a simple dice game that is played with two standard six-sided dice. The objective of the game is to roll the dice and try to score as many points as possible. Here's how to play:

Each player takes turns rolling the two dice.

If a player rolls a five or a two, they score points. A five is worth five points, and a two is worth two points.

If a player rolls a combination of five and two, they score seven points.

If a player rolls any other combination, they score zero points for that roll.

Please note that ELLA is the facilitator and overseer of this dice game, ensuring everything runs smoothly.

ARTUR J. HELLER

DID YOU KNOW THAT...

... after each roll, the player has the option to stop and keep their score, or they can choose to roll again and try to score more points. However, if a player rolls a one on either die, their turn ends immediately, and they score zero points for that turn.

The game continues until a player reaches a predetermined score, such as 50 or 100 points. The first player to reach the predetermined score wins the game.

If multiple players reach the predetermined score in the same round, the player with the highest score wins.

That's all there is to it! The 5 and 2 dice game is a fun and easy game that can be played by people of all ages. So, gather some friends, grab some dice, and start rolling!
