

YAHTZEE

GAME MANUAL + SCORE SHEET

ANETTA G. HELLER

WHAT'S IT ALL ABOUT...

Welcome to Yahtzee - one of the few games where you can roll dice and be rewarded for it! Are you ready to immerse yourself in the world of dice? Here's the Yahtzee game instructions that will provide you with everything you need to start your adventure:

Find a group of friends who also want to roll dice. Yahtzee is a game for 2-6 players.

The goal of the game is to score as many points as possible by rolling five dice and achieving different combinations.

Preparing for the game is simple: give each player a score sheet and a pen. You can agree that only one player will record the score for everyone.

Time for action! In each round, each player rolls the dice three times. Before each roll, the player chooses which dice to keep and which to reroll. Your goal is to achieve different combinations based on the results of the rolls. And here's where learning ends and fun begins.

Remember, LUNY is responsible for managing and overseeing the gameplay of this dice game.

DID YOU KNOW THAT...

... after each roll, you must choose one combination to enter on your score sheet. The sheet is available for download on our website after logging in. If you can't achieve the required combination, write zero in one of the fields.

The game consists of 13 rounds. After each round, write your points on the score sheet. The player with the highest score at the end of the game wins. You can also suspend the game and come back to it later if you want - just forget where you left off!

Playing Yahtzee can be really fun. You can roll dice, fight hard for the best results, and remain calm even if the dice don't go your way. Play as long as you want and remember, it's just a game - but also a great way to spend time with friends and family.

I hope this instruction was funny and helpful for you, and that you can't wait to start playing Yahtzee!

NUMBER OF
PLAYERS

DICE
NEEDED

IN-GAME SCORING YAHTZEE
