## OFFLINE PLAY SYSTEM ALWAYS READY, ANYTIME, ANYWHERE!

We've created a unique offline play system for times when players don't have access to online cards. With just three dice and a printed or PDF game manual, you can keep the game going without interruption!

Simply roll two white numeric dice (1-6) and one black die to determine your card selection. The black die assigns the card type: P for even numbers (2, 4, 6) and N for odd numbers (1, 3, 5). Match the white dice result to a card number and follow the instructions for an engaging challenge.

Want to add a competitive twist? Use a point system to track completed tasks and compete for the highest score. This innovative method ensures endless fun, anywhere, anytime—no internet required!

## WRINKLE-RESISTANT FABRIC FOR DURABLE GAMEPLAY

Finding the perfect textile was a priority for us, and we chose a high-quality, wrinkle-resistant fabric, 100% produced and created in the USA.

Our game boards, pouches, and foldable dice trays are designed for durability and convenience, ensuring a smooth, crease-free surface even after folding or storage. This premium material keeps your game components looking great, making it perfect for travel and everyday play!
